Education

Stellenbosch University

Western Cape, RSA

Master of Engineering in Electronic Engineering

Jan 2022 - Present

- **Research Topic:** Developing an autonomous robotic platform, that is capable of navigation over unknown, rough terrain. A platform-fusion approach is used to ensure successful adaptability of the system. This research has resulted in two publications;
 - * “Using a multi-robot system for improved path planning”, published in 2023 RAPDASA-RobMech-PRASA-AMI Conference.
 - * “Tethered Multi-Robot System for Improved Path Planning and Exploration”, accepted into the 2023 iteration of ICAR (*International Conference on Advanced Robotics*).

Stellenbosch University

Western Cape, RSA

Bachelor of Engineering in Electrical and Electronic Engineering

Jan 2018 - Dec 2021

- **Specialisation:** Robotics
- **Course average:** 65%
- **Final year research topic:** using trajectory optimisation to control a walking biped. This involved the design and construction of the biped, as well as the setup of a simulation environment to develop movement trajectories.

Dale College Boys’ High School

Eastern Cape, RSA

National Senior Certificate

Jan 2013 - Dec 2017

- **Course average:** 89%
- **Awards:** 2017 Dux Scholar.

Technical Skills

Languages: C, C++, Python, LaTeX

Software: Fusion 360, Inventor, SolidWorks, Onshape, Linux, MATLAB, Simulink, OpenCV

Hardware: Arduino, STM32, Raspberry Pi, Jetson Nano

Fabrication: 3D printing (FDM and Resin), Machine tools, Sheet metal

Languages

English: native

Afrikaans: good

German: beginner

Dutch: beginner

Experience

Witchkrantz Farm

Eastern Cape, RSA

General Worker

Jan 2015 - Present

- Performing maintenance on tractors and other machinery.
- Installation and maintenance of a security system; CCTV, electric-fencing, access control.
- Installation and maintenance of a backup power system, solar inverter with Lithium-ion battery pack and backup generator.

Berlin Meats and Dairy

Eastern Cape, RSA

General Worker

Jan 2015 - Present

- Installation and maintenance of a security system; CCTV, access control.
- Installation and maintenance of a backup power system, solar inverter with Lithium-ion battery pack and backup generator.
- Maintenance and troubleshooting of POS system.
- Interacting with a diverse group of employees and customers.

Stellenbosch University

Western Cape, RSA

Learning Assistant - Electronics 315, Computer Systems 245, Control Systems 314

Feb 2022 - Jun 2023

- Assisting students during tutorial and practical sessions with coursework and operating laboratory and experimental equipment.
- Assisting in the marking of formative assessments and practical reports.
